1. Message from the Chancellor's Desk

A Year of Stability and Growth

Like every other year since the beginning of MLCU, we have seen steady growth in the number of degree programs, new courses, and an evergrowing enrolment. There has been continued progress in the implementation of the New Education Policy 2020 and enlightened new policies from the University Grants Commission. These new developments have added relevance and vibrancy to the curriculum at MLCU.

We are grateful to the faculty and staff for their initiative and interest in enabling academic progress in the University. With these motivated and committed individuals, MLCU has been able to enhance its relevance to the job market.

In the last few years, MLCU has retained in its position in the top bracket of private universities in India. These rankings in India Today, Education World, Outlook and other rankings are an affirmation of the improving quality of our philosophy and practice of education.

Glenn C. Kharkongor
Chancellor

2. Message from the Vice Chancellor's Desk

I take it to be a privilege and an honour to write this message for the Annual Report of the University for the year 2023-2024.

Committed to our mission, the diverse academic activities carried out this year have showcased our University's continued growth and impact. I take this opportunity to congratulate the faculty, students of each department and the supporting staff, for their sincere and dedicated efforts in upholding the mission and vision of our University.

As members of the MLCU, we carry the responsibility and obligation to uphold the values that have defined us since our genesis: promoting professional solidarity, fostering continuous professional excellence, and maintaining our commitment to serving our students. Our aim remains to equip them, with the necessary skills to be employable and proficient.

Of course, like any organisation, we face our own set of challenges. These challenges test our resilience, but with each member's commitment to the enduring values of our University, we stand prepared to meet and overcome them. Our shared vision and dedication to professional growth and service are the pillars that strengthens us as a University.

This report reflects our ambition for an exciting and enriching professional journey ahead, and I am confident that together, we will elevate the status of the University to new heights.

May God continue to bless each one.

Prof.T.K Kharbamon
Vice Chancellor

3. Message from the Chief Editor

As we review the past year, I am delighted to share with you the highlights of our journey through this Annual Report (2023-24). This report encapsulates the essence of our journey the growth of our academic programmes, the success of our students and faculty, and the ongoing transformation of our campus and community.

Over the past year, our publication has continued to thrive and this report exemplifies the hard work and dedication of the entire editorial board and its contributors, whose collective efforts have allowed us to achieve new milestones. The University has made significant breakthroughs in various areas, from academic excellence to community engagement. Our students have excelled in both academic as well as extracurricular endeavours, our faculty members effortlessly continue to mentor and lead, contributing significantly to their respective fields and shaping the next generation of leaders. The staff has dedicated considerable effort to ensuring the success of the university.

As we gaze into the past year, we are reminded of the challenges we have overcome and the progress we have made, paving a way towards perfection. We strive to improve by embracing new technology and fresh methodologies, in order to provide a proper foundation for research and broaden their knowledge. We are filled with pride to showcase the countless achievements that have been realized over the past year, including trailblazing research, the expansion of novel teaching methods, and the strengthening of our global partnerships. The construction of the new university at Umphyrnai and Umsawli is a source of great pride and a beacon of promising opportunities ahead.

As an institute that strives for excellence, we work tirelessly to achieve diversity, inclusiveness, and a sustainable academic environment. Our mission has been to provide an environment that fosters intellectual curiosity, critical thinking, and holistic development. While we celebrate our achievements, we also acknowledge the challenges that lie ahead. However, we are confident that we shall succeed while working as a unified family. Looking forward, we are excited about the opportunities that lie ahead. As we plan for the future, we remain focused on our mission to provide a transformative educational experience that empowers students to become thoughtful, responsible, and innovative leaders.

As we move forward, I am fully confident that we will embrace the future with hope and resolve. United, we will build upon the achievements of the past year and make even more significant progress in the years ahead.

With warm wishes and greetings,

Dr Iwamon W J Laloo
Registrar

5. Acknowledgement

The completion of this annual report for the year 2023-24 would not have been possible without the collective efforts, dedication, and support of a great number of individuals in the university.

We extend our sincere appreciation to the tireless efforts of our esteemed faculty; the cornerstone of our institution, whose dedications has been instrumental in driving academic excellence and fostering a dynamic learning environment.

We acknowledge the support of our administrative team, whose discreet involvement ensures the seamless functioning of all university operations

Lastly, we express our gratitude to our Board members, collaborators and partners, friends and well-wishers of the university for providing their continuous support.

6. Preface

In terms of Sec. 44 (3) of the Martin Luther Christian University Act, 2005 passed by the Legislative Assembly of the Government of Meghalaya, the University, hereby, submits the eighteenth Annual Report for the Academic Year 2023-24 (July 2023-June 2024).

The Report prepared by the University's Board of Management has been duly approved by the Board of Governors and a copy of the same is hereby submitted to the Visitor of the University, His Excellency, the Governor of Meghalaya and to the Government of Meghalaya.

The eighteenth Annual Report of Martin Luther Christian University reflects the working of the administrative and academic departments of the university.

7. Strategic Intent

Vision of the university: Christian education and values for the betterment of society, especially its youth and Christian community.

Mission of the university: “To create an educational culture that is eco-sensitive, humanitarian, respectful of all cultures, and will contribute to the sustainable development of Meghalaya; of India’s North East; of the country; and the world. This educational culture envisages a student and teaching community that is acutely aware of issues afflicting societies and communities and attempts to build bridges instead of community enclaves. At the heart of education is the need to build professionalism and skill sets that equip students to deal with immediate and future challenges while also inculcating in them the ethos of equity in gender and all human relationships, and inclusivity through focused activism.”

Core values:

Honesty	Sustainability
Tolerance and Respect	Quality
Perseverance	Humility
Teamwork	Leadership
Accountability	Recognition
Christian Values	Tribal Values

Academic core principles:

- Continuous Formative Evaluation (CFE)
- Experiential Learning
- Self-Directed Learning (SDL)
- Student centred
- Research

1.2.15 SWOC analysis of the department

Strengths

- Able to have a wider knowledge and appreciation of other subjects
- Provide additional knowledge
- Helps improve grammar, vocabulary, skills and comprehension
- Value added course/UG and PG
- Good enrollment numbers, meets the demand of the job market and mental health practitioners
- Faculty from both Clinical and Counselling background
- Experience Faculty
- Available of external experts and networking
- It encourages the faculty to take up research
- Interns' students can be assistants in data collection processes and can be a part of project
- Ongoing partnership with organizations, schools
- LCDs available in most classrooms
- Adequate testing tools
- Good number of general textbooks
- Students avail scholarships
- More student intake
- Students are placed in community programs
- Good connection with alumni through social media
- Active participation with the department through events, guest lecturers
- Account staff helpful in procedures
- Well organised
- Organised filing system

- Structured filing system
- Providing faculty members with opportunity to pursue research and participate in programs
- Workshops, conference, seminars
- Leaves (Women leave, family leave)

Weaknesses

- Limited number of Electives
- Requires more diverse textbooks

Opportunities

- Teach students different styles of writing to improve assignments and research
- Start Clinical Psychology for Masters as desired by most students
- Certificate courses on Pastoral Counselling [in collaboration with the Department of Theology, Tele Counselling]
- Elective Paper on Psychology branches
- Start a counselling centre in the community
- Add to financial aid
- Faculty from other branch of Psychology
- Come up with different projects and publications
- Reduce the financial implications by allotting students to assist in data collection
- Start MOUs with organizations, hospitals, schools
- Can include more testing tools
- Subscribe to online Psychology library
- Department scholarships
- To help students engage more in the community and to have multi-cultural experiences and understanding
- To collaborate with alumni working in different sectors
- Department Budget manual to give a clear financial framework
- Open to any faculty development program

Challenges

Limiting the scope by not providing more electives (no wider scope)

Dr Laribha Dohtdong	Institutional visit to Institute of Hotel Management (IHM), Mawkasiang	March 15, 2024	Indian Institute of Hotel Management Mawkasiang, Shillong	19 MSc Nutrition and Dietetics (Second and Fourth semester)	The students were able to gain insights into the practical application of nutrition in the hospitality industry. Through the exposure, the students were acquainted with the different catering systems and were able to be familiar with the different programs offered at the institute. The students could comprehend the importance of interaction and collaboration between nutritionists and hospitality professionals which can lead to the formulation of healthier, delicious, and local food products. Overall, the tour inspired in them to venture and explore on the various career opportunities in the food and hospitality sector.
Dr Laribha Dohtdong	Visit to Supercare Hospital- Nutrition and Dietetic unit	June 2-3, 2024	Supercare Hospital, Demthring, Shillong	20 MSc Nutrition and Dietetics (Second and Fourth semester)	The visit significantly enhanced the understanding of students on the nutritional care processes in hospitals and the eminent responsibility of Dietitians and other healthcare personnel. It highlighted their role in patient recovery and the detailed processes involved in meal preparation and dietary management. The knowledge and experiences gained during this visit cater to the opportunities and learning

					experience for a career as healthcare professionals.

1.3.15 **SWOC analysis of the department**

Strengths:

- Diverse group of students
- Internship in UG and PG program
- The focus of the student's project is more on indigenous food systems and traditional knowledge which can be a pilot and baseline study for future research.
- Community-based learning.
- Interdisciplinary approach.
- An equipped learning laboratory.
- Publication of student's research

Weaknesses:

- A basic learning lab only. There is need for a research lab.

Opportunities:

- Only institute offers PG in Nutrition in Shillong.
- Only institution that offers nutrition course for male students.
- A well-equipped fruit processing lab.

Challenges:

- Competition between different institutions that offer UG program at a less fee.

The museum provides students with an invaluable opportunity to improve their

					<p>comprehension of cultural variety, history, and legacy through its vast collection of objects that represent many indigenous civilizations from Northeast India.</p> <p>Expected Learning Outcomes:</p> <ol style="list-style-type: none"> 1. Students will gain a deeper understanding of the diverse indigenous cultures of Northeast India, appreciating their historical and cultural significance. 2. They will develop cultural sensitivity and respect for different traditions, fostering a sense of inclusivity. 3. Students will be able to recognize the importance of cultural preservation and the role it plays in maintaining a community's identity. 4. The visit will encourage critical thinking about the impact of diversity on society and education. 5. Students will be equipped to apply this newfound cultural awareness to promote inclusivity and mutual respect within their own communities.

1.4.15 SWOC analysis of the department

Strengths

- The Department has well qualified and dedicated teaching faculty
- The Department works hard to provide opportunities and education to its student in spite of the limited resources

- Team Work

Weaknesses

- No under graduate programmes
- Lack of minor and major projects
- Less publications

Opportunities

- Organised workshop and training on teaching and learning for the newly inducted faculty members.
- Implementing innovative teaching methods and incorporating technology in the classroom.
- Faculty are given opportunity to participate in Seminar/workshop or any other Faculty Development programme

Challenges

- Keeping pace with the rapid changes of education
- Generation of resources for the upgradation of the department

1.5.15 SWOC analysis of the department

Strengths

- Inter-disciplinary; Designed Course for SDG
- Teaching learning and Evaluation-Student intake
- Library
- BOS
- Block Placement, Internships, Community camps, Exposure Visits, and Community Exchange
- Collaborations and networking
- Mentorship
- To start a one-year course on PDDP.

Weaknesses

- Need to work on Publication and Consultancies.
- Yet to conduct State and National Level Seminars and Workshops.

Opportunities

- Newly created Department
- Prepares students to pursue sociological research
- Prepares students for administrative examinations
- Bridge course
- External Grants and Consultancies
- Value added Courses

- Scholarships for PG students
- Faculty Development
- Documentation
- Research and Consultancies.

Challenges

- To make the course relevant in today's context
- Evaluation skills and change of attitude
- Need to establish the credibility of the Department
- Finding placement and internships as per the need.

1.6.5 Thrust areas of Research:

Our department's research excels across key domains: Marketing, Finance, Entrepreneurship, HR, and Tourism. In Finance, we analyze financial performance within tourism cooperatives and IT-driven cost reduction in institutions. Our Tourism research spotlights experiential dimensions and circuit development. Marketing inquiries encompass Meghalaya's turmeric cultivators' challenges, digital marketing's impact, and efficacy. These focused pursuits yield insights into contemporary business dynamics, fostering innovation and sustainable strategies in diverse sectors.

1.6.15 SWOC analysis of the department

Strengths

- The programme emphasizes on theory and experiential learning.
- The specializations provided are pertinent and in great demand.
- From this academic session, the department will offer MBA specialization in Hospital and Healthcare Management, MBA one-year Dual Specializations, Post Graduate Diploma in Christian Management, Post Graduate Diploma in Hospital and Healthcare Management.
- Faculty possessing are PhD degree with different specializations.
- Research exposure, internship opportunities, practical industry training, and involvement in the community in a variety of ways
- Students engaging in activities pertaining to different specialisations through club activities

Weaknesses

- Dearth of companies and business houses in the state for students undergoing internship.
- Students are reluctant to undergo internship programmes outside the State.

Opportunities

- The department has an advantage as relatively only few universities in the state offer MBA Programmes in several specializations.
- The department strongly supports student-led initiatives and events.
- Community engagement is another element that increases students understanding the state of society.

Challenges

- The identical programmes might be available at the other universities at a lesser fee amount.

Strengths

- Real-work experience as it allows learners to see and understand practical applications of the theoretical knowledge, making learning more practical and relevant.

- Exposure to new ideas by introduces students to new perspectives, innovations, and practices that can inspire and inform their own work and studies.
- Networking to meet and interact with peers, professionals, and experts in the field, potentially leading to future collaborations and career opportunities
- Community Engagement programs provide a platform for students' club members to connect with the community, fostering stronger relationships, and mutual support.
- Career development enables students to develop and practice a wide range of skills, including leadership, teamwork, communication, and project management.
- Expert insights access students to knowledge and expertise from a specialist in the field, offering deeper insights into specific topics
- Specializations offered are relevant and possess high market demand.
- Students are represented from different regions, social, cultural, and family systems that have added a wide diversity in the learning environment.
- Interdisciplinary subjects can be linked together with the departments within the school.
- Offering of Tally comprehensive certificate course and other capacity building courses.

Weaknesses

- Faculty without PhD

Opportunities

- Students led activities and programs are encouraged greatly in the department.
- Community engagement is another aspect that enhances student awareness about the scenario in which they operate.
- Collaboration with different organizations for internship opportunities and field visits

Challenges

- Other institutions offering same programs.

1.8.15 SWOC analysis of the department

Strengths

- The strength of the department lies in its emphasis on field surveys, data collection, tabulation and analysis. This practice inculcates in the students the mentality to investigate the factors that influence or affect certain issues by themselves and to confirm or disprove findings and conclusions regarding various issues affecting the society and economy.
- Learning by doing, especially in statistics and mathematics rather than the approach of rote learning.

Weaknesses

- The weakness is the fees (it is relatively higher than most institutions in the state) and the shortage of manpower and a dedicated lab.

Opportunities

- The department has lots of potential, one being a centre of research and data repository concerning the economy and society of the tribal communities of the North-eastern part of India. Second, it could be a centre for policy experimentation and formulation backed by data collected. Last but not the least, it could be a centre for the study and dissemination of indigenous knowledge, traditional livelihoods et al, thereby contributing to the synthesis and generation of knowledge.
- A centre of research to address and achieve the SDGs.

Challenges

- The challenge in the foreseeable future is the fees (which is derived from the weakness) as most educational institutions offer the same course albeit at a lower fee.

1.9.3 Academic activities / Courses in the Department:

Brief statement of academic activities of the Department

To help students better understand the tourism sector and associated topics, the Department of Tourism and Travel Management organises a number of programmes and events. Some of which are:

World Tourism Day- It is a yearly celebration held on September 27th to increase public awareness of the importance of tourism worldwide. To highlight the contribution of tourism to social, cultural, and economic development, the department presumably hosts seminars, workshops, and roundtable discussions.

World Heritage Week- It is an annual event that takes place in November with the goal of raising awareness and fostering an appreciation for cultural and natural heritage places. The department plan lectures, exhibits, and escorted tours of historic locations.

International Day for World Indigenous Peoples- It aims to advance and defend the rights of indigenous peoples all over the world. To increase public understanding of indigenous cultures and challenges, the department might host lectures, roundtable talks, and cultural events.

Community Camp- It entails students taking part in a community outreach or engagement programme associated with travel and tourism. Working with local communities to comprehend their needs and difficulties relating to tourism might be included. Travel and tourism education are not complete without study tours. To give students hands-on experience with all elements of the business, the department plans tours to a variety of locations, both domestically and abroad.

1.9.15 SWOC analysis of the department

Strengths

- Pioneer Univ. offering both PG and UG in Tourism Administration

- Faculty Members with Industry experience
- 4 Assistant Professors 1 completed his PhD and 3 Pursuing PhD
- Strong association with the Alumni
- Flexible curriculum
- Adept in activities of Event planning
- Department has a strong image in the State
- Talented and creative students.

Weaknesses

- Inadequately supported due to insufficient infrastructure (e.g., labs, equipment, library, books)
- Balance between theoretical and practical work is still a problem area
- No placement assistance to students
- Shortage of Training centres (other than the hospitality areas)
- Lack of Refresher Courses for teachers in the Tourism field.

Opportunities

- Able to diversify curriculum towards communities through vocational courses
- Potential to handle additional projects
- Potential for greater associations with societies/communities/groups
- Student bank capable of undertaking case studies and projects
- Further professional assistance to the development of livelihood initiatives in Tourism (e.g., Mawpun)
- Further placement assistance to students.

Challenges

- Scope of employment in the tourism sector currently still low in the state
- Tourism courses in other institutes (e.g., NEHU, UTM, Lady Keane College, St. Anthony's, St. Edmunds College, UCC, Women's College)
- Directorate of Tourism-sponsored courses with stipends
- High attrition rate of faculty.

1.10.3 Academic activities / Courses in the Department:

Brief statement of academic activities of the Department

The School of Language and Cultural Communication, offers opportunities to explore culture vis-à-vis literature, linguistics and language, and to train students in the knowledge of theories, scientific and ideological perspectives leading towards research and documentation of the indigenous and tribal languages and literature of Northeast India, particularly the endangered tribal and indigenous languages. The School aims at a critical study into local cultures, languages, and aesthetics, which otherwise have historically been rather understudied, underappreciated, and misrepresented in hegemonic narratives. Using traditional and non-traditional methods of study, the School aims to impart a sense of appreciation of a people, their cultural beliefs, lifestyles, traditional practices, and forms of expression reflected through literary art forms, linguistic identities, and effective pedagogical techniques.

1.10.5 Thrust areas of Research

The school promotes dissertations and research in indigenous art and literature and the use of language as an effective and comprehensible means of communication. Though not a rule, the department feels that belonging to the north-east of India with students generally from this area, it is pertinent that we study our own and help to promote and preserve our cultures, literature and languages while also being able to record and document them efficiently. Research in the field of Linguistics and English Language Education is also promoted for its relevance in effective communication.

1.10.15 SWOC analysis of the department

Strengths:

- Curriculum that is fresh and flexible, ranging from canonical to indigenous literature studies
- Practical learning through programs such as Meet the Author, Poetry Day Celebration, interactive sessions etc

- Flexible research to adapt to undocumented, oral, cultural practices such as folk songs and folk tales
- Preparation of students for competitive exams and research.

Weaknesses:

- Limited credits for a deeper and more comprehensive study of a comprehensive curriculum
- Limited opportunities for applying practical learning
- Standardization and publication of non-traditional research is needed for the enhanced impact of research
- Better promotion of the department, emphasizing its strengths, is essential to attract a larger enrollment and making it a leading choice for students.

Opportunities:

- Research done on indigenous communities and languages have great potential for archiving cultures that have not been documented earlier in a professional, academic format
- Considering the multi-lingual approach to dissertation research, there is opportunity to begin a translation cell from the School
- Scope for students to intern in the University press, to learn more about the process of publishing
- Collaborations with societies and organisations offering projects in cultural studies
- MoU's with firms, agencies, and institutions for providing content writers and language instructors
- Content provider to newspapers and journals on local issues and events as correspondents.

Challenges:

- Mandatory online classes have proven to be difficult with limited exam centres in SWAYAM
- Other institutions offering similar programmes with lower fee structure.

2.11.5 Thrust areas of Research:

The department's area of research focuses on several aspects of music. Firstly, folk music is the exploration of traditional music passed down through generations, preserving cultural heritage and celebrating community narratives. Traditional music delves into the study of music in different cultural contexts, highlighting diverse musical practices from around the world. Church music investigates the music used within religious settings, exploring the history, traditions, and forms of sacred music. Lastly, music therapy is an intriguing field that combines music and psychology to enhance physical, emotional, and cognitive well-being. This multifaceted research area allows for a comprehensive understanding and appreciation of music's cultural, spiritual, and therapeutic dimensions

1.13.15 SWOC analysis of the department

Strength:

- Alumni have been placed as music teachers, performers, and entrepreneur
- A good rapport with the Music experts and professional musicians form Khasi community and few from other parts of the country
- One among the two institutions in the state that offer BA Music and the only university who offer MA Music
- The only music institution who has Indian, Indigenous, and Western music subjects
- All faculty are PhD.

Weaknesses:

- High fee structure
- There is no regular faculty for Indian Music
- Have not organised any symposiums, seminars and conferences.

Opportunities:

- Mixture of students from different cultural background
- Exposure - Invitation from various institutions, government departments and organisations to perform
- A good documentation can be converted to Publication
- A lot of green field areas in traditional music
- Mixture of Indian, western and indigenous music.

Challenges:

- High fees, less enrollments

- Work load and staff balance
- Competition with other music institutes, colleges, bands in town
- Location and distance of the department from the city
- Other subjects not related to music have discouraged students in the course.

1.12.3 Academic activities / Courses in the Department:

Brief statement of academic activities of the Department

The Environmental Science Department of the university actively engages in a variety of academic and community-driven activities aimed at promoting environmental conservation and sustainability. Among these, plantation drives are organised regularly. River clean-up drives mobilize students and faculty to restore local water bodies, improving ecosystem health.

The department also leads cave conservation awareness initiatives, educating the community on the importance of preserving subterranean ecosystems. Traditional knowledge documentation projects focus on preserving indigenous ecological practices, bridging the gap between

science, and local wisdom. Climate change awareness programs are held frequently to inform and engage students in addressing global environmental challenges.

In addition, the department celebrates important environmental days such as World Biodiversity Day, World Environment Day, Earth Day, and Wildlife Conservation Day with special events, seminars, and workshops, fostering a deep connection with environmental stewardship and action.

The department offers the following postgraduate and undergraduate programmes during the year:

- MSc in Environmental Science (with specialisation) (30 capacity)
- MSc in Environmental Science (General) (30 capacity)

1.12.15 SWOC analysis of the department

Strengths

- Experienced and knowledgeable faculty with expertise in various areas of environmental science
- The department is involved in almost all SDG theme subjects offered in the university to all UG programmes
- Department undertakes a number of extension activities and camps as part of the curriculum
- Integration of sustainable practices within the department and campus.
- The department offers MSc Specialisation and M. Sc General courses.
- Regular updating of the curriculum.

Weaknesses

- Low student enrollment
- Insufficient space for students to carry out practical work

- Finding an appropriate time for more experiential learning activities to fit in the schedule
- Not enough documentation of all activities and work being carried out by the department
- Limited internship and job placement opportunities for students.

Opportunities

- To inculcate the sustainable development goals in each student in a simple and effective manner
- Expansion of interdisciplinary degree programs in environmental sciences
- More exposure to attract student intake
- Inviting experts from the field
- Collaboration with international universities for exchange programs
- Opportunities to apply for external grants from various companies related to the subject.

Challenges

- Limited number of experiential learning because of restricted timelines
- Insufficient space for students to carry out practical work
- Adapting to emerging environmental technologies and methodologies
- Balancing academic rigor with the practical skills required in the field.

1.13.3 Academic activities / Courses in the Department:

Brief statement of academic activities of the Department

The Department of Allied Health Science was set up in 2006 with the mission statement *“To be a department of excellence, dedicated to quality education in healthcare and research by integrating values, commitment, social consciousness, professionalism and services thereby creating skilled health professionals”* and with the following objectives:

- To equip students with hands-on experience and enhance their skills in their field of study.
- To prepare them to be skillful and confident as they move from the classroom environment to their workplace.
- To uplift healthcare in rural and urban settings.
- To have laboratory, clinical, and community engagement.
- To produce trained professionals who are locally and globally competent and to enhance their employability.

The courses offered are Diploma in Medical Laboratory Technology, Diploma in Medical Imaging Technology, Bachelor of Science in Medical Laboratory Technology, Bachelor of Science in Medical Imaging Technology, Bachelor of Science in Surgical, and Operation Theatre Technology, Bachelor of Science in Physician Assistant and Bachelor of Science in Optometry. The post-graduate courses include Master of Science in Medical Laboratory Technology with Specialization in Microbiology and Biochemistry and Generic, Master of Science in Medical Laboratory with specialization in Clinical Bio-chemistry, Master of Science in Medical Laboratory Technology Generic, Master of Science in Medical Imaging Technology.

The Department follows the model curriculum of the Ministry of Health. The clinical postings are in-house and to hospitals for hands-on exposure alongside health camps in urban and rural areas. The Under Graduate (UG) students go for a 12 months’ internship and carry out a project during the period whereas Post Graduate (PG) and diploma students go for a six months’ duration of internship with a dissertation (PG).

1.13.15 SWOC analysis of the department:

Strengths:

- Young dynamic faculty
- Fostering a Supportive and Inclusive Professional Environment
- Highly competent and experienced faculty
- Demonstrating Professionalism and Respect for Time

Weaknesses:

- Limited Number of Publications
- Fewer PhD Holders Among Faculty
- Limited Research Projects

Opportunities:

- Faculty Upskilling and Professional Development
- Academic Conferences and Symposia
- Workshops and Seminars
- Strategic Collaborations and Partnerships

Challenges:

- Rising Competition from Other Institutions Offering Similar Programs
- Job market saturation
- Increasing Interest in government jobs

1.14.3 Academic activities / Courses in the Department:

Brief statement of academic activities of the Department

The Department of Information Technology is committed to fostering a dynamic and holistic learning environment for students. Our academic activities encompass a wide range of initiatives designed to enhance knowledge, practical skills, and exposure to emerging technologies. Some of our key activities:

Metanoia: Annual Inter-Departmental Tech Competition, Tech Fest with Invited Colleges, Guest Lectures from Industry Experts, Workshops on the Latest Trends in Technology, and Project-Based Learning.

1.14.5 Thrust areas of Research:

The Department's research endeavours focus on the following areas: Data Mining, Machine Learning, Digital Image Processing and ICT in Education. In Data Mining, we plan to develop and analyse novel techniques for uncovering valuable insights within extensive datasets, enabling

data-driven decision-making through pattern recognition, and predictive modelling. Our Machine Learning research plans involve advance automation, prediction and classification across diverse domains, from natural language processing to robotics, pushing the frontiers of intelligent systems. Simultaneously, our work in Digital Image Processing plans to enhance visual data analysis, computer vision and image-based pattern recognition, benefiting fields like medical imaging, remote sensing, and multimedia content analysis.

1.14.15. SWOC analysis of the department

Strengths

- Foundation Courses in IT involves no additional cost for resources
- Skill based specializations
- Industrial training opportunities
- Scholarships being availed
- Budget friendly value-added course
- Awareness and integration of current technologies
- Student of the semester award.

Weaknesses:

- High student enrollment leading to limited individual attention
- Low Retention of Students for Postgraduate (PG) Courses
- Absence of consultancy.
- Absence of sponsorships.

- Challenges in tracking and engaging of Alumni
- Limited Lab Access for Students from other departments

Opportunities:

- Provide fundamental IT skills
- Publications and community-based projects
- Emphasis on hybrid and paperless learning practice
- Ability to provide technical and administrative support without adding additional cost.

Challenges

- Closure of courses due to low enrollment
- Limited revenue streams for the department
- High maintenance cost for Labs
- Competition with reputed organizations that offer similar programmes
- Overload of credits for faculties due to extra responsibilities.

3.2.2 Objectives of the Centre:

The Centre for Career Development and Placement was created to offers career guidance services for students with the following objectives:

- To facilitate students to identify the sources of educational and occupational information that enables career decision process.
- To address the individual development/ career development and transitions throughout the lifespan.
- To give proper orientation to students on employability skills which will create more avenues for young people to acquire meaningful employment, including self-employment.
- To follow up on the professional development of the students by training them towards employability skills such as resume building, group discussion and interview skills which in turn can help the students to move into a desired occupation and/or apply in prestigious professional schools for higher studies/ employment.

3.2.3 Faculty:

In 2018, the Board of Governors approved the creation of the Centre as an administrative centre under the Office of the Dean of Students. It does not have or require full-time faculty. The centre conducts various career guidance programs and awareness initiatives for the students of the University, as well as community outreach programs in schools and communities in Meghalaya and Northeast India.

Additionally, the centre conducts a Foundation Course in Career Skills, usually held once a year for the 1st-semester undergraduate students. This program is facilitated by the faculty members of the Career Team, who support the activities of the Centre from time to time. Currently, the Centre is reorganised and is under the Faculty of Management (Circular No.: 74 III/8(8)/Admin/265/2015 dated August 19, 2024). At present, there are 3 faculty members who are Jiva License Career Counsellors.

3.3.2 Objectives of the Centre:

- The Community Centre of Art, Craft and Culture introduces to the university the possibilities of looking at academics from a creative angle. Art has always been one of the branches of studies that requires all of our senses to be taken into consideration. It is no doubt that students who participate art programs tend to perform better in other subjects. It is also true that art programs enhance critical thinking and problem-solving skills.
- The centre also focuses on hands-on activities that allows for exercising our tactile senses. During the course of the activities we have had, we have noticed that there are more participants who have not been in touch with their creative side since their school days but who shows keen interest to continue and explore this medium. Some of them were able to create works that speaks volumes about the way they feel and understand life.

3.3.6 Academic Activities of the Centre: (Brief statement of Academic activities and Achievements)

The Community Centre of Art, Craft and Culture introduces to the university the possibilities of looking at academics from a creative angle. Art has always been one of the branches of studies that requires all the different senses to be taken into consideration. It is no doubt that students who participate art programmes tend to perform better in other subjects. It is also true that art programs enhance critical thinking and problem-solving skills. Our centre focuses on hands on activities that allows for exercising our tactile senses. During the course of the activities we had, we have noticed that there are more participants who have not been in touch with their creative side since their school days and who shows keen interest to continue. Some of them were able to create works that speaks volumes about the way they feel and see life. In short, the centre's programmes aim at nurturing our unique ability to feel and view life from varied perspectives.

Master in Visual Art	PG	1 st	As we are subjected to very diverse visual experiences in our day to day lives, we realise how important media and images play in today's world. This programme will enable students to understand the art of making images and to encourage them to look at images from diverse perspectives. Critical analysis of these images will also be an important focus to further understand effective composition and content creation. Apart from this, guiding the students in curatorial and exhibition management and art presentation is also included. Semester wise exhibitions at different site-specific locations will be part of the curriculum which will expose students to interact and share their concepts and ideas behind their work. Many more art activities related to exploration of the arts with other disciplines will also be included. This programme is aimed at broadening opportunities and ventures for young people inclined towards visual arts to create, develop and grow within and beyond their own community	August 18, 2023

4.4.2 Academics

The NEP 2020 has provided a new blueprint for higher education in India and emphasized the need for 21st century skills. The policy is based on a multidisciplinary approach of liberal education that provides a broad intellectual foundation to think critically, reason analytically, and communicate clearly. If higher education is to prepare students for life, for work and for becoming effective members of society, it is important to provide a holistic foundation of knowledge, skills, and values to view the world from scientific, artistic, and humanistic angles.

The NEP has been implemented in the university from the Academic Year 2020-2021 in the curriculum of all departments

4.4.7 Curriculum

The diploma and degree programmes that MLCU offer are livelihood, career, and entrepreneurial centred. They are oriented to the development needs of the state, region, and country. The curriculum is experiential, not didactic, dynamic, not static, and competency-based rather than theoretical.

Multidisciplinary initiatives

Sl no	Title of the initiative
1.	<p>Choice Based Credit System (CBCS)</p> <p>In line with UGC recommendations, the University follows the Choice Based Credit System for all undergraduate students. Under CBCS, students choose a Minor (12 credits) from another department.</p>

	The 17 th Academic Council approved the new scheme for undergraduate degree programs effective from batch 2024-25.
2.	<p>Foundation Course</p> <p>Life span development is the field of study that examines patterns of growth, change and stability in behaviour that occur throughout an individual's lifespan. Lifespan development focuses on human development and views development as a continuous, lifelong process. Lifespan development uses a scientific approach to understanding human growth and change throughout life and encompasses physical, cognitive, social, and personality development. Culture and ethnicity also play an important role in development, that is, both culture in the broad sense and aspects of culture, such as race, ethnicity, and socio-economic status. The Foundation Course provides awareness and engagement with all these issues that young adults face and will provide academic, social, and psychological support during this important phase of life and university education.</p>
3.	<p>Sustainable Development Goals</p> <p>Sustainable Development Goals (SDGs): People, Planet, Prosperity, Peace, and Partnership (for UG students)</p> <p>Identifying the UN 17 SDGs as the directional theme in creating the multidisciplinary subjects was one way to ensure a multidisciplinary approach. The subjects created from the 17 SDGs allows credit- based courses and projects in the areas of community engagement and service, environmental education and value-based education as mentioned in the NEP 2020. Every goal of the UN SDG can be achieved only by the combined approach of two or more disciplines. It allows students to understand about the different social issues that contribute to quality of life and at the same time identify ways in solving the problem through the provision and management of the different government schemes and innovative ways to earn livelihood and improve the life of the people. Hence, it also creates the opportunity for a cross-disciplinary and interdisciplinary approach.</p> <p>Sustainable Development Goals (SDGs): Exploring Core Elements, Interconnections, and Challenges for a Sustainable Future (for Postgraduate students)</p> <p>This course is designed to provide postgraduate students with a comprehensive understanding of the UN Sustainable Development Goals (SDGs) and their relevance in addressing global issues and challenges. The course aims to enhance the students understanding of the key concepts, principles and frameworks related to sustainable development. Further, the course aims to explore the interconnections of different SDGs and identify the challenges in implementing the SDGs.</p>

4.	<p>Gender, Sexuality, and Society in Northeast India, compulsory course for all post graduate students (4 credits) is implemented for all PG students from batches 2021 and 2022.</p> <p>Objectives of the course:</p> <ol style="list-style-type: none"> 1. To examine basic concepts in gender studies 2. To examine the factors contributing to gender bias, inequality and inequity 3. To inculcate gender sensitivity towards issues of the LGBTQIA community 4. To address critical issues in reproductive health and sexuality 5. To examine the legislative framework for gender equality in the international, national and regional context 6. To examine contemporary issues related to Northeast India. <p>From batch 2023 onwards, the credit for this course was reduced to 2 credits.</p>

Curriculum enhancements

Sl no	Significant modifications made during the year
1.	<p>Self-Directed Learning (SDL)</p> <p>The UGC Guidelines for Master’s degrees has the following provision: “The students shall be encouraged to study some part of the syllabus themselves and shall be given assignments, so as to make use of the library, laboratory, internet, and such other faculty.” Self-learning is any study form in which individuals have primary responsibility for planning, implementing, and even evaluating the effort. Most people prefer self-learning to teacher-directed learning. In self-directed learning: Individual learners become empowered to take more responsibility for decisions associated with learning.</p>
2.	<p>Internships</p> <p>As part of experiential learning, internships are encouraged and supported in MLCU in that all departments have internships. The strongest internship programme in terms of duration and learning is in the AHS department. Most AHS students have found the internship to be a personal and professional transformative experience. A transformative experience will best come about from an immersive internship which serves several purposes.</p>

4.4.8 Teaching Learning-Process

The Teaching-Learning Certification Program in MLCU embodies a thorough strategy for faculty development, addressing the various dimensions of teaching and learning. It places a strong emphasis on fostering innovative teaching methods, incorporating technology effectively, promoting self-awareness, nurturing professional growth, and valuing student input. The primary goal of this program is to enable faculty members to thrive in their teaching roles and actively enhance the academic standing of MLCU. Obtaining a Teaching-Learning Certification signifies more than mere recognition of expertise; it signifies a commitment to continuous improvement and a focus on education centred around the needs of students.

AUDITORS' REPORT

We have audited the attached Balance Sheet of Martin Luther Christian University, Meghalaya, as at 31st March 2024 and also the Income and Expenditure account for the year ended on that date annexed thereto.

The preparation of the financial statements is the responsibility of the management of the University. Our responsibility is to express an opinion on these financial statement based on our audit.

We have conducted the audit in accordance with the Generally Accepted Auditing Standards. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement.

An audit includes examining, on test check basis, an evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used by the University, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The amount of depreciation was charged as per the accounting software adopted by the University and not as per the Income Tax Rules.

We have not been provided with the reconciliation of the liabilities on account of GST, ESIC and TDS and the same are as per the books of accounts.

Subject to above we report that :-

1. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of the audit.
2. In our opinion, proper books of accounts as necessary for the purpose of audit have been maintained by the University, so far as appears from our examination of those books.
3. The Balance Sheet and the Income and Expenditure account dealt with by this report are prepared in accordance with the accounting principles generally accepted in India.
4. The Balance Sheet and the Income and Expenditure account referred to above is in agreement with the books of accounts.
5. In our opinion and to the best of our information and according to the explanations given to us the said accounts, subject to the notes on accounts, give a true and fair view :
 - (i) in the case of the Balance Sheet, of the state of the affairs of the University as at 31st March 2024; and
 - (ii) in the case of the Income and Expenditure account, of the excess of *income over expenditure* for the year ended on that date.

Schedule S: Significant Accounting Policies and Notes on Accounts

March 31, 2024

A. Significant Accounting Policies:

1. Basis of Preparation of Financial Statements

The financial statements are prepared under the historical cost convention and all significant items of income and expenditure are accounted on the accrual basis of accounting. The Statements of Accounts comply with generally accepted accounting policies and mandatory accounting standards and statements issued by the Institute of Chartered Accountants of India.

2. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the University to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities at the dates of the financial statements, and the results of operations during the reported period. Although these estimates are based on the University's best knowledge of current events and actions, actual results could differ from these estimates. Difference between the actual results and the estimates are recognized in the period in which the results are known or materialized.

3. Income Recognition

All income including tuition and other fees are recognized on their due dates on accrual basis. The portion of fees received which pertains to the subsequent financial year are treated as fees received in advance.

4. Expenses

All expenses are accounted on accrual basis and provisions are made for all known liabilities.

5. Fixed Assets

Fixed assets are stated at their cost of acquisition inclusive of freight, duties, taxes and incidental expenses relating to acquisition of the asset, and the cost of installation/erection as applicable.

6. Depreciation

Depreciation is charged on cost as per written down value method as per rates given in Rule 5, Appendix I of the Income-tax Rules, 1962 Leasehold improvements are amortized over the period of the lease and computer software has been depreciated @ 40%.

7. Impairment of Assets

Impairment of an asset would take place when the carrying value of the asset exceeds its recoverable amount. Accordingly, impairment losses will be charged to the Income & Expenditure Account in the year in which an asset is identified as impaired. The impairment loss recognized in a previous accounting period is reversed if there has been a change in the estimate of the recoverable amount.

8. Provisions

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provisions that are not otherwise made in the accounts are disclosed by way of appropriate note, wherever applicable.

9. Contingent Liabilities & Contingent Assets

Contingent liabilities are not recognized, but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

B. Notes on Accounts:

1. Fixed assets include building in progress and expenses incurred towards land development.
2. Depreciation has been charged on the written down value of assets as per rates given in Rule 5, Appendix I of the Income-tax Rules, 1962 and computation of depreciation on additions during the year has been made from the date on which the assets have been effectively put to use. Leasehold improvements have been amortized over the period of lease.
3. Interest earned on investment of university endowment fund has been allocated between the Development Fund and Endowment Fund in accordance with Section 40(4) of the Martin Luther Christian University Act, 2005. Interest earned on investment of other endowment funds is apportioned among the respective funds.
4. The University undertakes execution of projects and carries out consulting engagements on behalf of government agencies and non-governmental organizations as part of its initiatives to build practical knowledge for its faculty and students. The receipts and disbursements in respect of projects and consulting engagements completed during the year are stated in the Income & Expenditure Statement and the remaining ones are carried over under Designated Fund Accounts in the Balance Sheet.

6. As per the current year there is no provision made for doubtful debts as there is enough provision made in the previous year.
7. There are outstanding amounts as raised by the Income Tax Department for the AY 2009-10, 2010-11 and 2018-19 for which an appeal/rectification has been filed with the Income Tax Department and have been contested against the same.
8. Previous year figures have been regrouped and re-arranged wherever necessary.

Martin Luther Christian University

Report of the 16th Convocation

The 16th Convocation of the Martin Luther Christian University was held on September 22, 2023, at Lariti International Centre for Performing Arts and Culture, Mawkasiang, Shillong. Hon'ble Mr Rakkam A Sangma, Minister of Education, Government of Meghalaya graced the occasion as the Chief Guest and Dr Theyiesinuo Kreditsu an Indigenous feminist, poet, academician, educator, and cultural conservationist delivered the convocation address.

Of the total 929 graduating students, 26 PhDs, 587 master's degrees, 224 bachelor's degrees, 15 postgraduate diplomas, 65 diplomas, 2 certificate courses, and 12 executive programs were

awarded. In this convocation, we were also able to invite the graduates of 2020 and 2021 to attend the convocation.

Martin Luther Christian University presents awards to outstanding alumni at every convocation to honour past students and celebrate their achievements. The award recognizes alumni who have demonstrated excellence in their chosen field of community engagement, academics, cultural contribution, entrepreneurship, or any public or professional service. The Distinguished Alumni Award does more than honour its recipient. It is a demonstration of the mission and ideals of the University. It brings pride to the faculty, staff, and alumni and provides role models for the students.

Nominees for the awards are submitted by the departments, and the final selection is made by a faculty committee, chaired by the Vice-Chancellor. The degrees pursued by the awardees at MLCU and the years the degrees were awarded are indicated after their names.

While congratulating the graduates of 2023 Mr Rakkam A Sangma briefed that, the North Eastern tribal region was isolated, but like other Christian missionaries, American missionaries played a pivotal role in bridging this gap. They were not focused on conversion, but rather on improving our well-being, irrespective of our color or religion. The education that they brought enabled to connect our community with the wider world. Education has since transformed our way of life, elevating us from practices rooted in savagery and primitive customs to a more progressive existence. He quoted that education has made "the Khasis the better Khasi, the Garo the a better Garo, the Naga the better Naga, and the tribals the better tribals, and this education has made the Hindu a better Hindu, the Muslim a better Muslim."

He also urged all the graduates to remember their roles and responsibilities in the future to construct the bridge and connect amongst communities and not build the wall as leaders of tomorrow. Mr Sangma also reiterated the implementation of the National Education Policy 2020; on its pedagogy and multidisciplinary curriculum where students need not worry from which discipline a student emerges because the current education policy has opened limitless boundaries to study and shift to any subject of interest one prefers. One must be ready for any sector even if the subject studied is contrasting to the job acquired in the future. Government jobs will not be enough to provide for all the graduates which is why new opportunities should be ventured and the current. He further stated that, "The New

Education Policy has opened up the door, the multidisciplinary courses.” as part of the curriculum. “As a science student such can become a politician. Therefore, there is no boundary for each one of us...let us not draw a limit, a boundary that we desire”, he commented. he advocated that students should be ready for all kinds of multiple challenges for their service is required in all sectors. Tribal students have the talents and capacity for knowledge, and the uniqueness of our culture and identity doesn’t need to be protected or preserved but it needs to be promoted. In his concluding note, Mr. Sangma advocates all the graduates as qualified students to reach out beyond boundaries and serve the country and the utmost for humanity. Additionally, he also highlighted the capacity of Artificial intelligence to replace fourth-grade jobs such as peons by substituting the human workforce.

Therefore, these threatening issues need to be reconsidered and not be controlled by the capacity of technology and artificial intelligence but instead learn how to control these technologies to substantiate us for the growth and development of our community, administration work, medical purposes and not to substitute us. Mr Sangma incorporated all of these elements in his speech on the 16th Convocation Day of MLCU.

The Speaker for the 16th Convocation Day Dr Theyiesinuo Keditsu shared on “the debt in the way that our customs and traditions reinstate, re-enact, and ritualize our obligations to one another in our world in never-ending cycles, keeping us humble and dependent on one another in perpetuity.” She also inculcates that as an Alumni one should acknowledge one’s debts, be emboldened, empowered, and motivated by personal obligations, and pay them forward.

She concluded by summarizing her address by asking a few simple questions- What is your name? Who are your people? Where is your land? What are your obligations to your people and your land? Ultimately, she asks to seek answers to these questions with the stories one carries and with own stories. “Answer these questions by exchanging stories with those you need, for as long as we tell and listen there is hope that we, us and ours will prevail”, stated Dr Keditsu by urging everyone while speaking on identity and the power of names which could motivate personal lives when meaning and purpose is served.

Convocation of Martin Luther Christian University: September 22, 2023**

Awards/Recognitions

In the May 2023 issue of the Education World Magazine, India Higher Education rankings 2023-24, MLCU was ranked 59 from amongst 80 participating institutions under India's best private multidisciplinary university at the all-India level and ranked 1st at the state level.

MLCU ranked 48 in the Outlook India University Rankings 2023 under the top 50 state private universities. MLCU scored 360.28 out of 400 for Academic & Research Excellence

Enrollment

New enrollment for the academic year 2022-23 was 1040

Academic Highlights

In the academic year 2022-23, the university had 4 schools, 17 departments, and 7 centres.

In the recently concluded academic year, the university offered 26 PG, 17 UG, 5 PG diplomas, 3 Diplomas, 13 certificates, and PhD programs in both secular and theological studies.

MLCU has endorsed the National Education Policy (NEP) 2020 and implementation of the same in the Academic Year 2023 has the approval of the Academic Council. Numerous pertinent policies and guidelines, including the Curriculum and Credit Framework for UG programs of the UGC having elements such as major, minor, multidisciplinary, interdisciplinary, and skill enhancement subjects have been included. The provision for Multiple Entry and Exit is also available,

The University has also adopted the blended learning approach where up to 40% of the subjects can be taken online through Coursera, Udemy, or SWAYAM. The university has also enrolled in the Academic Bank of Credits, to facilitate credit mobility for students.

Research and Publications

Research in terms of doctoral programs, funded research, and publication are all being taken care of by the Department of Doctoral Studies and Research.

During the year, the university's respective departments have successfully secured funded research projects from the Indian Council for Medical Research (ICMR). These projects include "Comprehensive Tribal Management for Decentralized TB Care Services" in West Khasi Hills and "Resilience and Coping Mechanisms Adopted by Tribal Khasi Men in the Matrilineal Society of Meghalaya, with a Focus on Marital Relations." Additionally, the university through the Department of Music received a project titled "*Ki Sur Iawbei* Krohiawhair Village, East Khasi Hills District, Meghalaya" from the Northeast Zone Cultural Centre (NZCC), Ministry of Culture, Government of India.

A book titled "Training Persons with Disabilities as Successful Entrepreneurs" by D Marina B Marwein, along with the proceedings of the 1st National Conference "The Rise of Digitization in Business/Organization: A Boon or Bane." were successfully published by the MLCU Press

Student support and services

The Dean, Students office plays a crucial role in the university's administration, focusing on holistic student development and academic support. It encourages students to explore diverse talents and interests through clubs. The office organizes activities year-round to provide support for the academic and personal growth of students.

Through this office, the university has been able to provide full scholarships to 226 students belonging to socio-economically disadvantaged backgrounds.

The Dean of Students office is responsible for the establishment of the Students' Council and students' clubs. Through the Students' Council and the students' clubs, various activities like the Zumba and yoga classes for both students and staff were organised as part of the activities for the health and wellbeing of everyone. The Dean of Students office has also organised an ongoing program on Peer support for the MSc Psychology students which will also be made available to all the students after the final program is launched. Regular counselling of students who require support is provided by expert counsellors. Recently a program called the Weekend on Campus has been initiated by the office for students who would like to take part in various activities during the weekend. The main event organised by the Dean of Students office is the annual Aurora which aims to bring in all the students from the various departments and allow them the opportunity to participate in various games and activities, thereby giving them the space to express themselves athletically and creatively.

Administration

Progress of campus development

Umphyrnai Campus

The New Campus Development Project has been prepared and construction activities for infrastructural development have already commenced. The MLCU Umphyrnai Campus located about 20 km from Shillong (DC's Office) off NH 6 having a land area measuring about 21.2280 acres will be constructed in two phases. The ongoing phase 1 includes the construction of 4 buildings (Treps), passageways connecting all four buildings, a multipurpose hall, the construction of roads, parking areas, fencing, and other allied construction works. The scheduled completion of phase 1 is 24 months from

the date of commencement of building construction work. Upon completion, phase 1 will accommodate one administrative building/ Trep, 2 academic buildings/ Treps, 1 Life Science building, and a multipurpose hall that will have a total built-up area of about 75,753.17 square feet.

Umsawli Campus

The University also owns another plot of land at Umsawli, Mawpat. The Umsawli campus of MLCU is located in the New Shillong Township at Wahrisham, Mawpat having a land area of about 54,043 Square feet and a building area of about 30,850 square feet. This campus which is under development currently houses the Science Technology and Innovation Hub, the Centre for Innovation and Incubation of Startups, the School of Economics Commerce and Management, and four other departments. Campus facilities also include a library, laboratories, outdoor learning spaces for students, and a cafeteria. Upon completion of the remaining works of the building, this campus will provide adequate facilities for teaching-learning, with a barrier-free environment, facilities to support research, an ecosystem for innovation, facilities for the creation and transfer of knowledge, green campus initiatives, and general campus facilities.

Centre for Innovation and Incubation of Startups

Martin Luther Christian University, Shillong signed a Memorandum of Understanding with the PRIME Startup Hub, Government of Meghalaya under the Meghalaya Basin Management Agency (MBMA), on October 28, 2022, to set up the Entrepreneurship Promotion and Development Programmes (EPDP) and Incubator at MLCU, Umsawli Campus.

The Entrepreneurship Promotion and Development Programmes (EPDP) and Incubator implemented by MLCU through its Centre for Innovation and Incubation of Startups and supported by PRIME Startup Hub envisions making entrepreneurship a preferred career choice for the youth and

people of the State through the creation of a dynamic and collaborative ecosystem that enables easy availability of credit, relevant technology, skilling and mentoring support, and access to high leverage markets.

Through this project, the youth is encouraged to explore alternative methods of employment and become job creators rather than mere job seekers. The Centre currently houses a 3D Printing Laboratory to support product and prototype development, a hydroponics laboratory for research in Plant biology and also providing opportunities for entrepreneurship development in vertical farming and allied technology.

IT Infrastructure

MLCU has in-cooperated ICT in its functioning and to promote e-governance, various initiatives have been taken up. MLCU has established three leased lines and two corporate lines connections and has improved the internet accessibility on the campus. We have also doubled the bandwidth from 50 Mbps to 100 Mbps and additional Wi-Fi hotspots have been strategically placed in recreational areas such as the canteen and lounges to ensure that students remain connected to their digital resources without interruption. To provide a centralized MLCU information management system (IMS) and to make MLCU a digital campus, we have signed an MOU with Octoze Technologies Private Limited, Chennai. The MLCU IMS comprises several modules, including Individualized Course Enrollment, Examination, and Outcome-Based Education, all of which hold the potential to fulfill the aspirations of Generation Z students.

Collaborations

Collaboration is vital for universities as it fosters diverse perspectives and enriches the learning environment. The university has been able to establish MoUs with the following institutions:

- Canolfan Gerdd William Mathias (Caernarfon Wales)
- The State Resource Centre on Disability Affairs (SRCDA)
- Meghalaya Aids Control Society (MACS)
- The Parkinson's Disease & Movement Disorder Society
- PRIME Startup Hub, Govt of Meghalaya
- Society for Urban and Rural Empowerment (SURE)
- Tally Private Limited

Thank you

Introduction of MLCU Mascots

In this convocation, we were also able to introduce the two MLCU mascots

Mel:

Mel wants to help people. He volunteered at an NGO where he met some MLCU students who were doing their fieldwork. They covered and so Mel decided to study social work at MLCU. Mel loves music, writes lyrics, and keeps a diary. He spends time with friends and likes being active, and particularly loves sports and dancing. His personality type is ESFP They are outgoing, friendly, and accepting. Lovers of life, people, and material comforts. They enjoy working with others to make things happen. They bring common sense and a realistic approach to their work, and make work fun. They are flexible and spontaneous, adapt readily to people and environments. learn by trying a new skill with other people.

Sue:

Sue wants to start up her own event management company. She found out about MLCU through one of its podcasts on YouTube. She decided to join the tourism department and specialize in event management to begin her journey toward her goal. Sue is musical, visually

perceptive, has an analytical mind, and is comfortable in her own space. Her personality type is INTJ. They have original minds and a great drive to implement their ideas and achieve their goals. Quickly see patterns in external events and develop long-range perspectives. When committed, organize a job, and carry it through. They are skeptical and independent, have high standards of competence and performance – for themselves and others.

This year's mascots are Amayda Eden Syiem, Counselling Psychology, and Walunir Jamir, English Literature.
